Accredited Public Antiretroviral Facilities

Here are lists of state clinics that provide antiretroviral treatment (including CD4 and viral load counts) free of charge. The data is provided by the Department of Health. Please use the comment facility on this webpage to describe the quality of service you have received or to update or correct these lists.

- List supplied by Department of Health, February 2008 (PDF)
- List supplied by Department of Health in 2006 (contains contact details for many sites, ommitted unfortunately from the February 2008 list)

Private Antiretroviral Treatment

The Joint Civil Society Monitoring Forum website provides a list of private doctors who have experience treating people with HIV. Please use the comment facility on this webpage to describe the quality of service you have received with any of these doctors or to suggest doctors (with their contact details please) that are not on the list.

Also, to find a private doctor in your areas with HIV expertise, email or phone (011 453 5066) the Southern African HIV Clinicians Society.

Obviously TAC cannot take responsibility for the accuracy of the information on this webpage.
