

TAC Mopani at Mariveni TB and HIV Campaign

By *adam*

Created 2009/03/13 - 3:07pm

13 March, 2009 - 15:07 ? adam

☒ The campaign was held at the Mariveni clinic which falls under Tzaneen Sub-District. The attendance included learners from local schools, elder people from the village and it was also blessed by the Ndunas of the Mariveni village. This was made successful by the clinic committee, clinic management and the partners organisation which among others included Treatment Action Campaign, HURISIC, Total Control of Epidemic and CRP.

The Head of HIV ad STI Unit in the sub-district Mrs Shilumani encouraged young people to stay negative by abstaining from sex at early ages.

A member of TAC who is also a Prevention Treatment Literacy Practitioner, Mr Collins Nghonyama(On the Photo) was the guest speaker at the event.
